penicillin-binding protein 1A - Streptococcus pne
C;Species: Streptococcus pneumoniae
C;Date: 07-Apr-1994 #sequence_revision 07-Apr-199
C;Accession: A42893
R;Martin, C.; Briese, T.; Hakenbeck, R.
J. Bacteriol. 174, 4517-4523, 1992
A;Title: Nucleotide sequences of genes encoding F
A and 1B.
A;Reference number: A42893; MUID:92325042
A;Accession: A42893
A;Status: preliminary
A;Molecule type: DNA
A;Residues: 1-719 <MAR>
A;Cross-references: GB:M90527; NID:g153766; PIDN:
C;Superfamily: penicillin-binding protein 1B
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       RESULT
